About This Game

ARCHMMO 2

This game is currently in Early Access 0.8.0

ArchMMO 2 is a Voxel 3D MMORPG with races, factions, guilds, parties, pets, mounts, PvP, PvE, quests, and an open-world map! Explore the world of Arch today!

ArchMMO 2 is being upgraded and developed every day, and now, it's on Steam. Steam is **the best** platform for an indie game to gather attention. Thank you for playing ArchMMO 2, and I can't wait to see what's going to happen in the future!

Currently, Weapons are a big thing I want to keep adding to. Every update will include new weapons, up to level 50! This will increase a large amount of gameplay!

GOALS

Quests, quests, quests! A needed addition to all MMO's. I am working extra hard on creating meaningful quests for the Human class in the game. Currently, the human class is the only fully supported class. The Undead will be after at-least 50+ quests are made for the human race. More quests = more enemies, more items, more weapons, and more people.

Magic and Skills are also a hugely important part of the game. I want to have some creative buffs, debuffs, and castings. This is all being implemented in a later update. Quests and items are the priority right now.

English

So, it's been 4 days now since the last hotfix. Cannot gain XP after level 13, the main quest chain is still bugged and cannot be completed. Now to top it all off, the Day 0 Benefits and Perks that were to be delivered on 4V17 are nowhere to be found with no update from the developer.

Looks like this is going to go the same way as every other early access game. Money taken and promises not kept.. So, it's been 4 days now since the last hotfix.
