Customer Reviews Synopsis Boys have their rules: you can't date a girl you can't get, and you can't go to jail. Reality can be a bitch. Steady Eddie is living his dream. He's living with his girlfriend, living in a nice house. What more could a guy want? When he's not at work, he and his girlfriend are at home, relaxing, making dinner, spending time with their friends. That is, until Eddie's friends show up and inform him that he's hit rock bottom. His job is on the verge of firing him, and he can't pay his rent. Tillman Stokes is living his dream. He's moving into a new apartment, with a new girlfriend. What more could a guy want? What he's not getting is a paycheck, or any kind of job, really. He spends most of his time day dreaming, fantasizing about a life away from the city, on the beach, in the mountains. Then one day he's called to do his old job, but they don't need him. Now what? Things quickly spiral out of control for Tillman. Because, like everyone else, Tillman isn't very good at keeping his rules. And, like everyone else, Eddie is going to have to decide where his loyalty lies. This is a story that takes place in three different areas, three lives with three very different outcomes. In order to do so, we wanted to see what would happen if the central character changed his rules. Who would Eddie be if he was living a life of stability and tranquility, making a living and spending time with a girlfriend? What would happen if he wasn't so uptight and jaded? In the end, we found out that our characters aren't all that different, but one thing is; we aren't all that different. The Bottom Line You do have to be aware that, like the real world, life is full of unexpected events. You can't plan for them. Sometimes, things happen to people that are completely out of their control, and they have to pick up their lives and move forward.

That's what happens in this story. In it, 3da54e8ca3
